1 New Project Storming

2015-01-09 (Friday)

1.1 Topics

- What are control efforts doing to the local populations of *G. f. fuscipes*?

1.2 White board

- is there a climate change angle that we can probe with this?
- proximity to “urban” areas or high traffic areas (major roads/parks)?
- what population structure model is best for our populations?
 - island

- hierarchical
- *etc*
